

25 Years and Beyond

Twenty five years to December 2006 then the Bays Club heads into another period of history.

The President's Report in the November 2006 Newsletter said:

"I am pleased to be able to report that our Club is in excellent health. All the financial indicators are heading in the right direction."

This is a cryptic way of saying that all of our major renovations and alterations have been completed, the restaurant is booming, membership is at 1200, the view is back to its former glory and there is increasing patronage in the daytime.

Ending one period of history and starting another at this level of achievement promotes the conclusion:

"It's great to be a member of the Bays Club".

Notes from the compilers

Regrets

Sadly we were limited by time, space, and resources, and we regret:

- Our inability to include photographs of all the individuals who are such an integral part of the Club's unique identity
- The omission of any event that is important to the Club or to individual members .
- The omission of any acknowledgement where it was due.

Such omissions do not negate our deep appreciation.

Acknowledgements:

The Members and Staff. All those proactive people, past and present, who have made the Club worthy of note and recognition.

The Art: The image on the front cover incorporates A.G. Parker's "Progress Hall" 1979.

The photographers. Known or unknown, your contributions give colour to our memories and understanding. Particular thanks to Lynette Sceats for her photographs and albums.

The co-ordinator. Dave Campbell, who had the vision.

The researchers. John Capon and Bob Towersey, who ploughed through every set of Minutes and every Newsletter to gather a wealth of information.

The writer. Ken Tresadern, practical throughout, who provided ideas, edited the information, sorted it into logical segments, and wrote around it.

The designer. Tony Nettleton, who took the information, gathered some more, and put the booklet together.
