

Welcome to the Bays Club, 2010 - 2011

Welcome to the Bays Club; a venue where you can choose any number of reasons to be there. It may be a particular activity you and your friends enjoy; you may choose to get together for a dinner, go to a function or simply just to socialise. There are so many choices today and the following pages give an in-depth view of the club and where we are nearly 30 years on and still going strong.

For the new or prospective members, a quick word about our history. It all began in 1978 when the founding fathers came up with the concept of the club. From then it took three more years to design, raise

funds, get planning permission and build the club. It was opened in the December of 1981 and since then been through a great number of changes and metamorphosed into the club we have today. I have no doubt that further changes will be required to cope with the ever changing demands of the club and it's future well-being.

I trust that you will find this booklet both useful and informative and that you continue to enjoy the facilities of the Bay Club.

*Rodney Allison
President - the Bays Club*
